INFORMATION DISCLOSURE STATEMENT

The Hon. Commissioner of  
Patents and Trademarks  
Washington, D. C. 20231

Sir:

In connection with this Rule 60 application of parent application of Fussi et al Serial No. 347,026, applicants advise the Examiner that their French counterpart application has been allowed over all of the following materials:

U.S. 2,832,766,

DE-C-1,032,731,

DE-C-968,752, and

U.S. 3,685,184.

PTO Form 1449 is attached hereto.

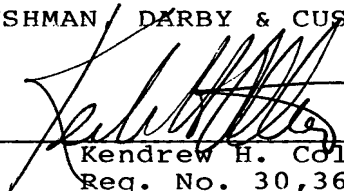

It is not seen that any of the above references are more pertinent than the references already known to this Examiner during prosecution in the parent application.

Rule 60 Continuation of  
FUSSE et al - SN 347,026

Accordingly, it is believed that the originally submitted claims and the newly presented claims in the first preliminary amendment define a novel and unobvious advance over the above-disclosed art. A communication to that effect is earnestly solicited.

Respectfully submitted,  
CUSHMAN, DARBY & CUSHMAN
